Hope you are well,

Closing of a company takes approximately eight months.

Advice in which country you are staying - there are documents, that should be certified by you in order to close the company.

Hi Emil,

I hope you are well.

As I do not intend to provide a power of attorney, please outline the steps required for closure.

VELOCITY Ltd has not carried out any activity, and I would like to proceed with discontinuing the registered office and all related services, and to close the company.

Please also confirm the effective end date of the current service period.

Thank you for your assistance to date.

Kind regards,

Dear Emil,

Thank you for confirming and for the explanation.

I understand now that the Cyrillic spelling "СТИВЪН КУК" is a standard transliteration of my name and that the original English spelling Stephen Cooke in the Articles and documents remains legally valid. That reassures me.

I appreciate your assistance and all your support in getting the company properly established.

Warm regards,
Stephen Cooke

Hi Stephen,

Exactly this is what I remember we discussed at the office.

Everything is correct with the name and registration - no need and not also possible to make amendments. Your name with Cyrillic letters is СТИВЪН КУК (without "е" at the end)

Dear Emil,

Thank you for your response and for providing the Articles of Association.

I've reviewed the documents and appreciate that my name appears correctly there as *Stephen Cooke*. However, in the copy of the public Commercial Register extract you shared with me a few weeks ago, I noticed that my name is listed in Bulgarian as *СТИБЪН КУК* — a transliteration that omits the final "e" in my surname.

As my full legal name is *Stephen Cooke*, as reflected in my passport and all formal documentation, I would be grateful if you could assist in submitting a request to correct this in the Commercial Register. Ensuring consistency across records will help prevent any potential issues with banking, vehicle registration, or contractual matters.

Please let me know if there is anything you require from my side to support this.

Stephen Cooke

Dear Emil,

I've noticed that the legal name listed for the company VELOCITY EOOD (EIK: 208334744) is incorrect. My correct full name is **Stephen Cooke**, but the registration shows it as **Stephen Cook**.

Could you please assist in correcting this with the Commercial Register? It's important for aligning all future documents, including banking and vehicle registration.

I'd appreciate it if you could confirm:

- That the correction will be submitted
- How long the process usually takes
- Whether I'll receive confirmation once it's updated

Thanks again for your help.

Just following up to see if we've heard anything back from Postbank yet. I received an email a few days ago asking me to verify my email address, which I've completed. I'm still in the area, so I'm happy to stop by in person if anything further is needed on my end.

Also, I noticed in your recent email that the company name was listed as "Velocity" — just flagging that the correct spelling is "Veilocity," in case it was a typo or autocorrect.

Appreciate your continued support.

Hi Emil,

I hope you're well.

I've encountered a small issue while attempting to complete the Revolut transfer to Lohrfare Ltd. The bank branch at 3 Hristo Stambolski St. does not appear as an available option within Revolut's system.

When I search the address on Google Maps, it redirects to the general area of Aleksandar Stamboliyski Blvd 130/132, 1000 Sofia, which is recognized by Revolut and appears as a valid bank branch selection (please see the attached screenshots for reference).

Since the IBAN and BIC/SWIFT codes are the definitive routing identifiers, and the branch address is only required by Revolut to fulfill form validation, I intend to use the [Aleksandar Stamboliyski Blvd 130](#) address to proceed — unless you advise otherwise.

Could you kindly confirm that this is acceptable from your side?

Stephen Cooke

Hi Emil,

Apologies for the late message — I'm in the process of completing the Revolut transfer and wanted to check something quickly.

Revolut requires me to select a bank address from a preset list, but the branch at **3 Hristo Stambolski St.** isn't appearing as an option.

I've attached screenshots showing the available addresses. Could you please let me know if one of these is acceptable to use instead? **Or**, I do have the ability to manually enter in an address but thought it wise to check with you first.

Thanks in advance for your help,
