

STEPHEN COOKE

Resyst Inc.
67 Mowat Avenue, Suite 49
Toronto, ON M6K 3E3
Canada

17 July, 2026

I am excited to apply for the IT Support Technician/HelpDesk position with Resyst Inc. My background in IT systems administration, networking, desktop support and customer service has provided me with the technical and interpersonal skills needed to support end users in a fast-paced environment.

I have hands-on experience supporting Windows and Linux systems, configuring TCP/IP networks, VPNs, firewalls and secure remote access, troubleshooting hardware and software issues, and maintaining reliable IT infrastructure. During my IT internship with Diamond IT, I gained practical experience with Windows Server, Microsoft Azure and Microsoft 365 while assisting with system administration and technical support. My previous client-facing roles have also strengthened my communication skills, allowing me to explain technical concepts clearly to non-technical users and deliver excellent customer service.

I am a quick learner who enjoys troubleshooting complex issues, documenting solutions and continually expanding my technical knowledge. I am confident I would make a positive contribution to your support team and would welcome the opportunity to discuss how my experience aligns with the needs of Resyst Inc.

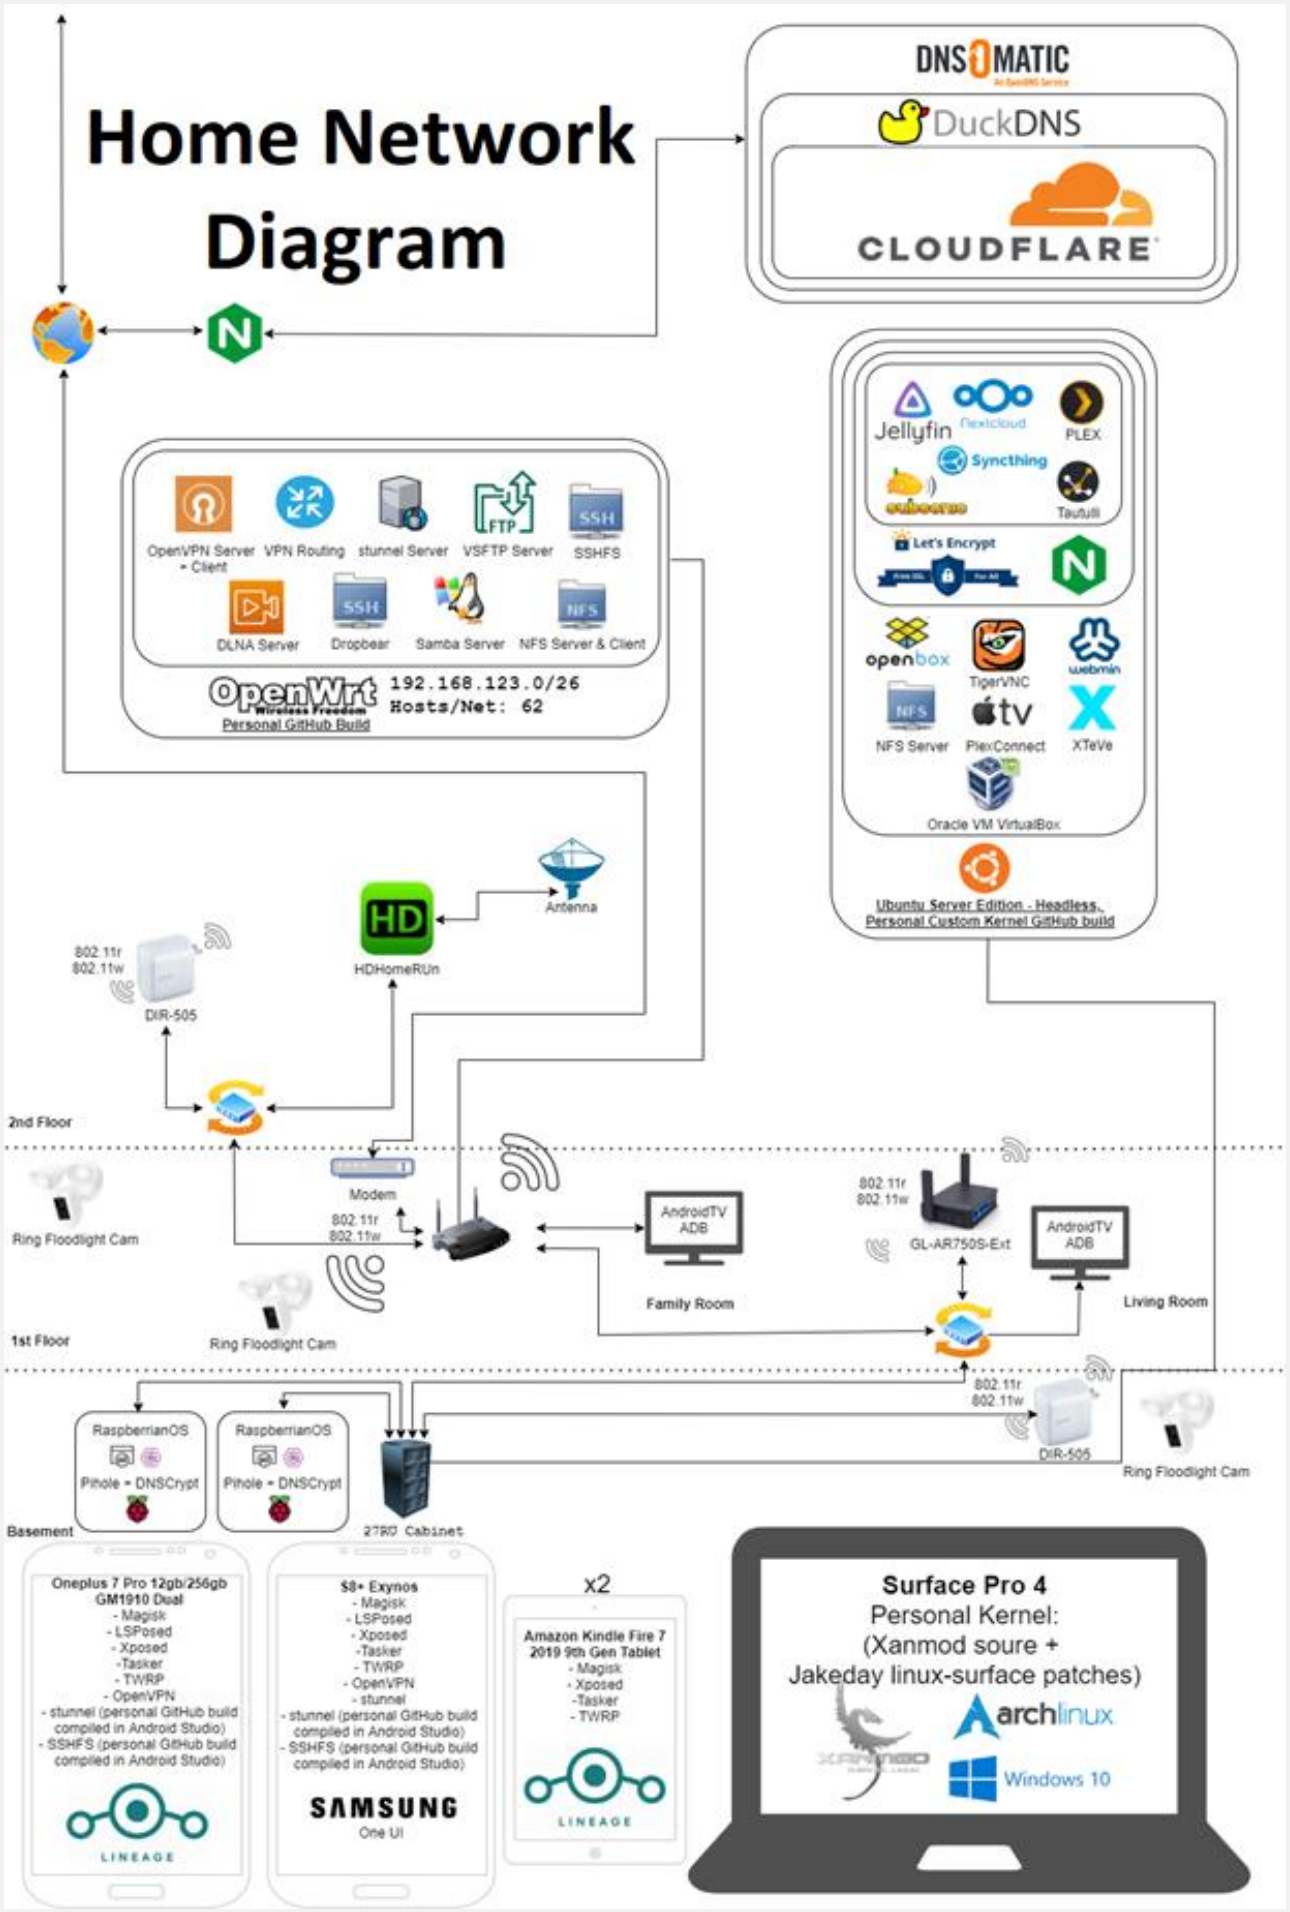

Thank you for your time and consideration. I look forward to hearing from you.
