

STEPHEN COOKE

Peace Hills General Insurance Company
Attn: Hiring Manager
600 – 10709 Jasper Avenue NW
Edmonton, AB T5J 3N3
Canada

17 July, 2026

I am writing to express my interest in the IT Cybersecurity Specialist position with Peace Hills Insurance. While my professional background has focused on systems administration, networking, and technical support rather than cybersecurity, I have developed practical security skills through home lab environments, Linux administration, and continuous self-directed learning.

My primary platform is Arch Linux, where I have gained hands-on experience administering systems, securing services, troubleshooting issues, managing networks, firewalls, VPNs, virtualization, and self-hosted infrastructure. I have also used the BlackArch security repository to explore penetration testing, vulnerability assessment, and security tools in a controlled lab environment. These experiences strengthened my understanding of operating systems, networking, and defensive security.

I have developed strong analytical and troubleshooting skills, communicate technical concepts clearly, and enjoy identifying root causes and implementing practical solutions. I am committed to continually expanding my cybersecurity knowledge.

I recognize this position seeks an experienced cybersecurity professional, but I believe my technical foundation, adaptability, and passion for cybersecurity would allow me to contribute while growing with your team.

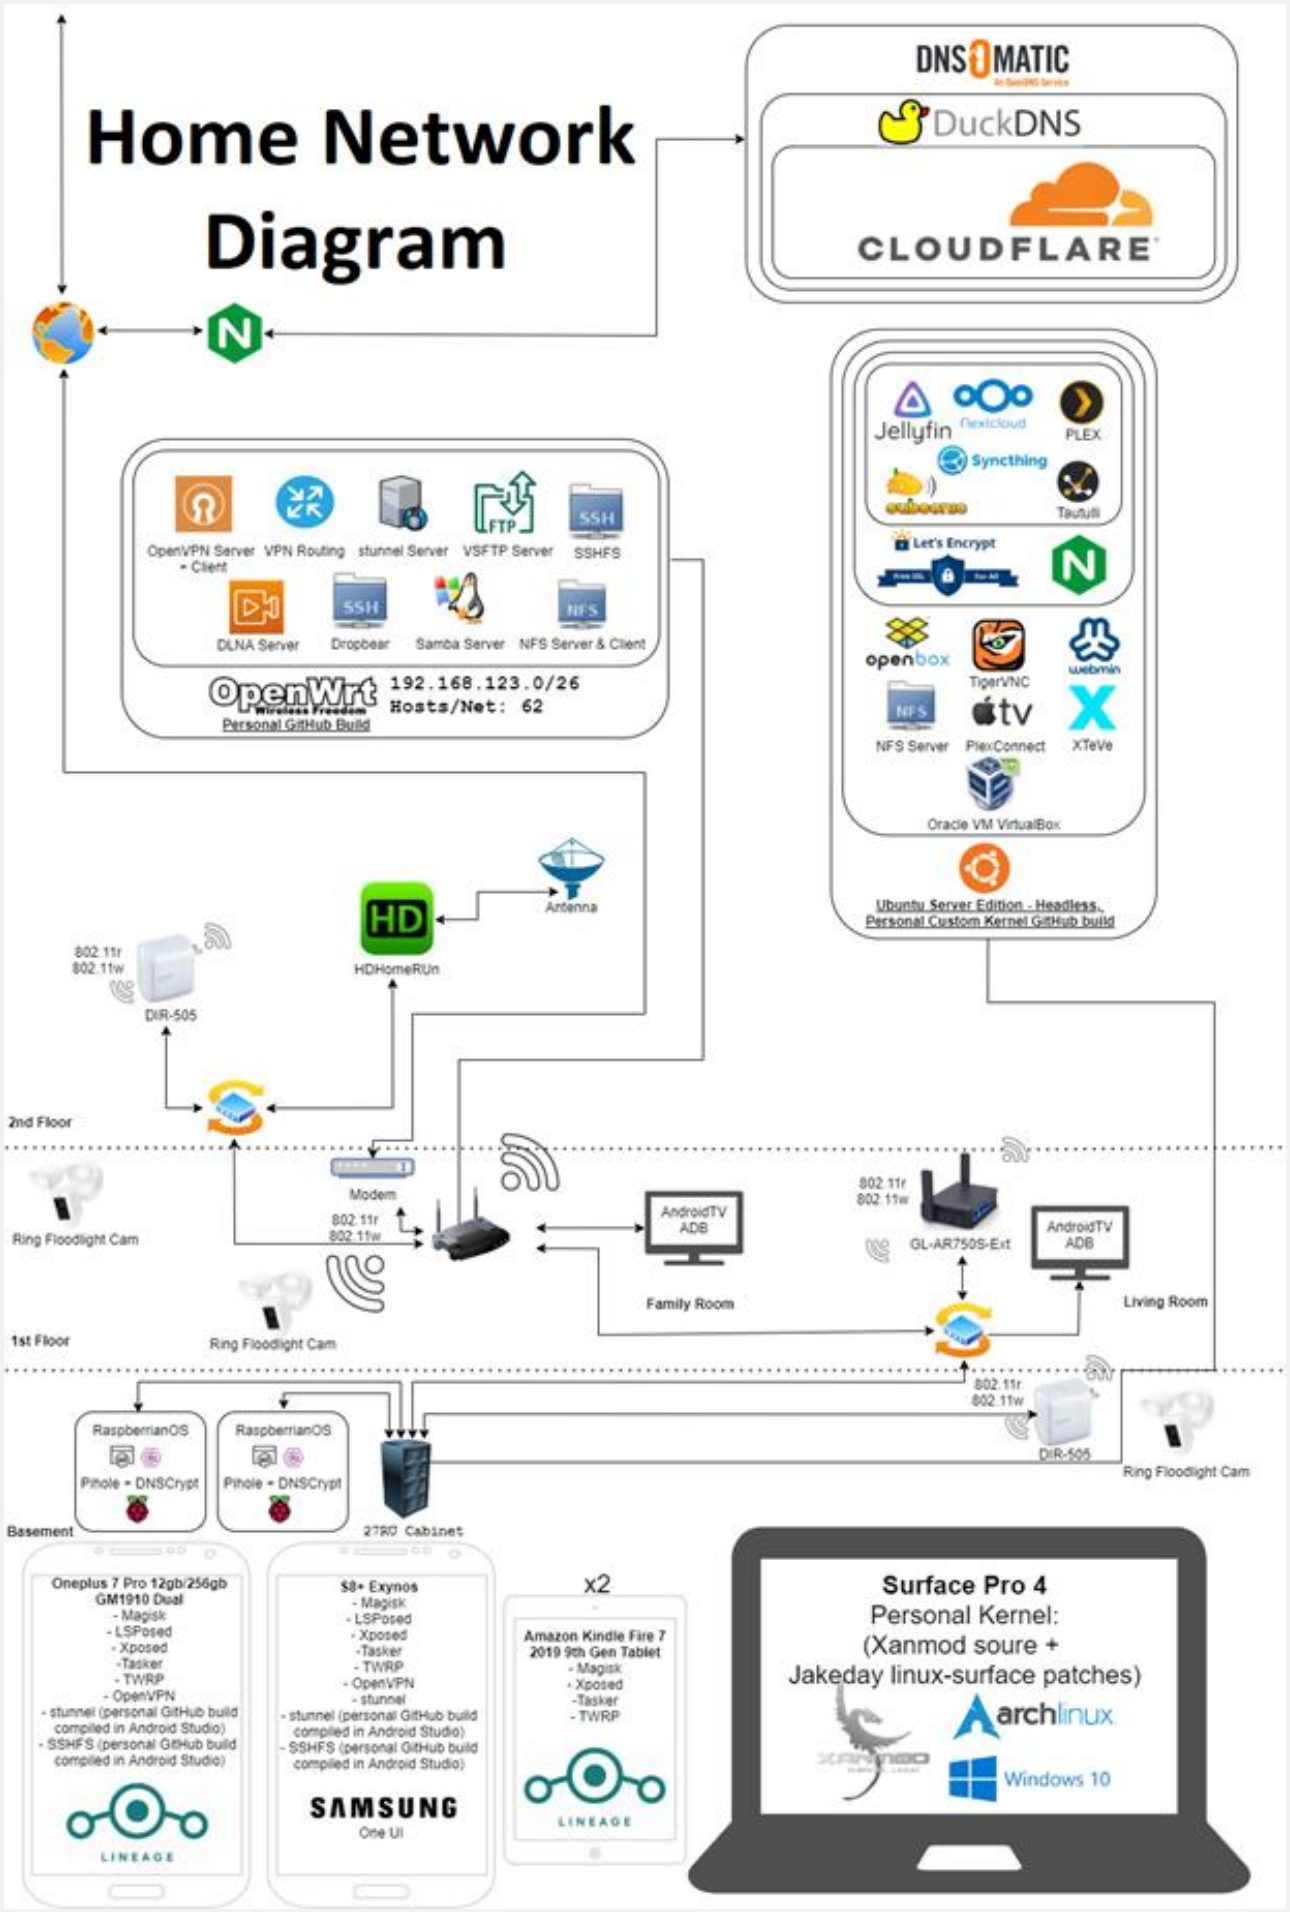

Thank you for considering my application. I welcome the opportunity to discuss how my background can contribute to Peace Hills Insurance.
