

STEPHEN COOKE

PepsiCo Beverages Canada
2400 31 St N
Lethbridge, AB T1H 5K8

21 July, 2026

Dear Hiring Manager,

I am writing to express my interest in the Seasonal Full-Time Merchandiser position with PepsiCo in Lethbridge. Having recently returned to Canada after living in Australia, I am excited by the opportunity to relocate and join a company recognized for its strong culture, commitment to safety, and opportunities for career growth.

My background includes customer service, technical support, and hands-on problem solving. I enjoy working independently, staying organized, and completing physical, fast-paced work to a high standard. I take pride in being dependable, maintaining attention to detail, and providing excellent service while building positive relationships with customers and colleagues.

I am physically fit, comfortable lifting and moving products throughout the day, and understand the importance of maintaining well-stocked, organized, and visually appealing displays. I work efficiently, manage my time well, and enjoy roles where I can take ownership of my responsibilities while contributing to the success of the wider team.

I hold a valid Ontario Class G driver's licence with a clean driving record, have access to a reliable vehicle, am legally authorized to work in Canada as a Canadian citizen, and am willing to relocate to Lethbridge.

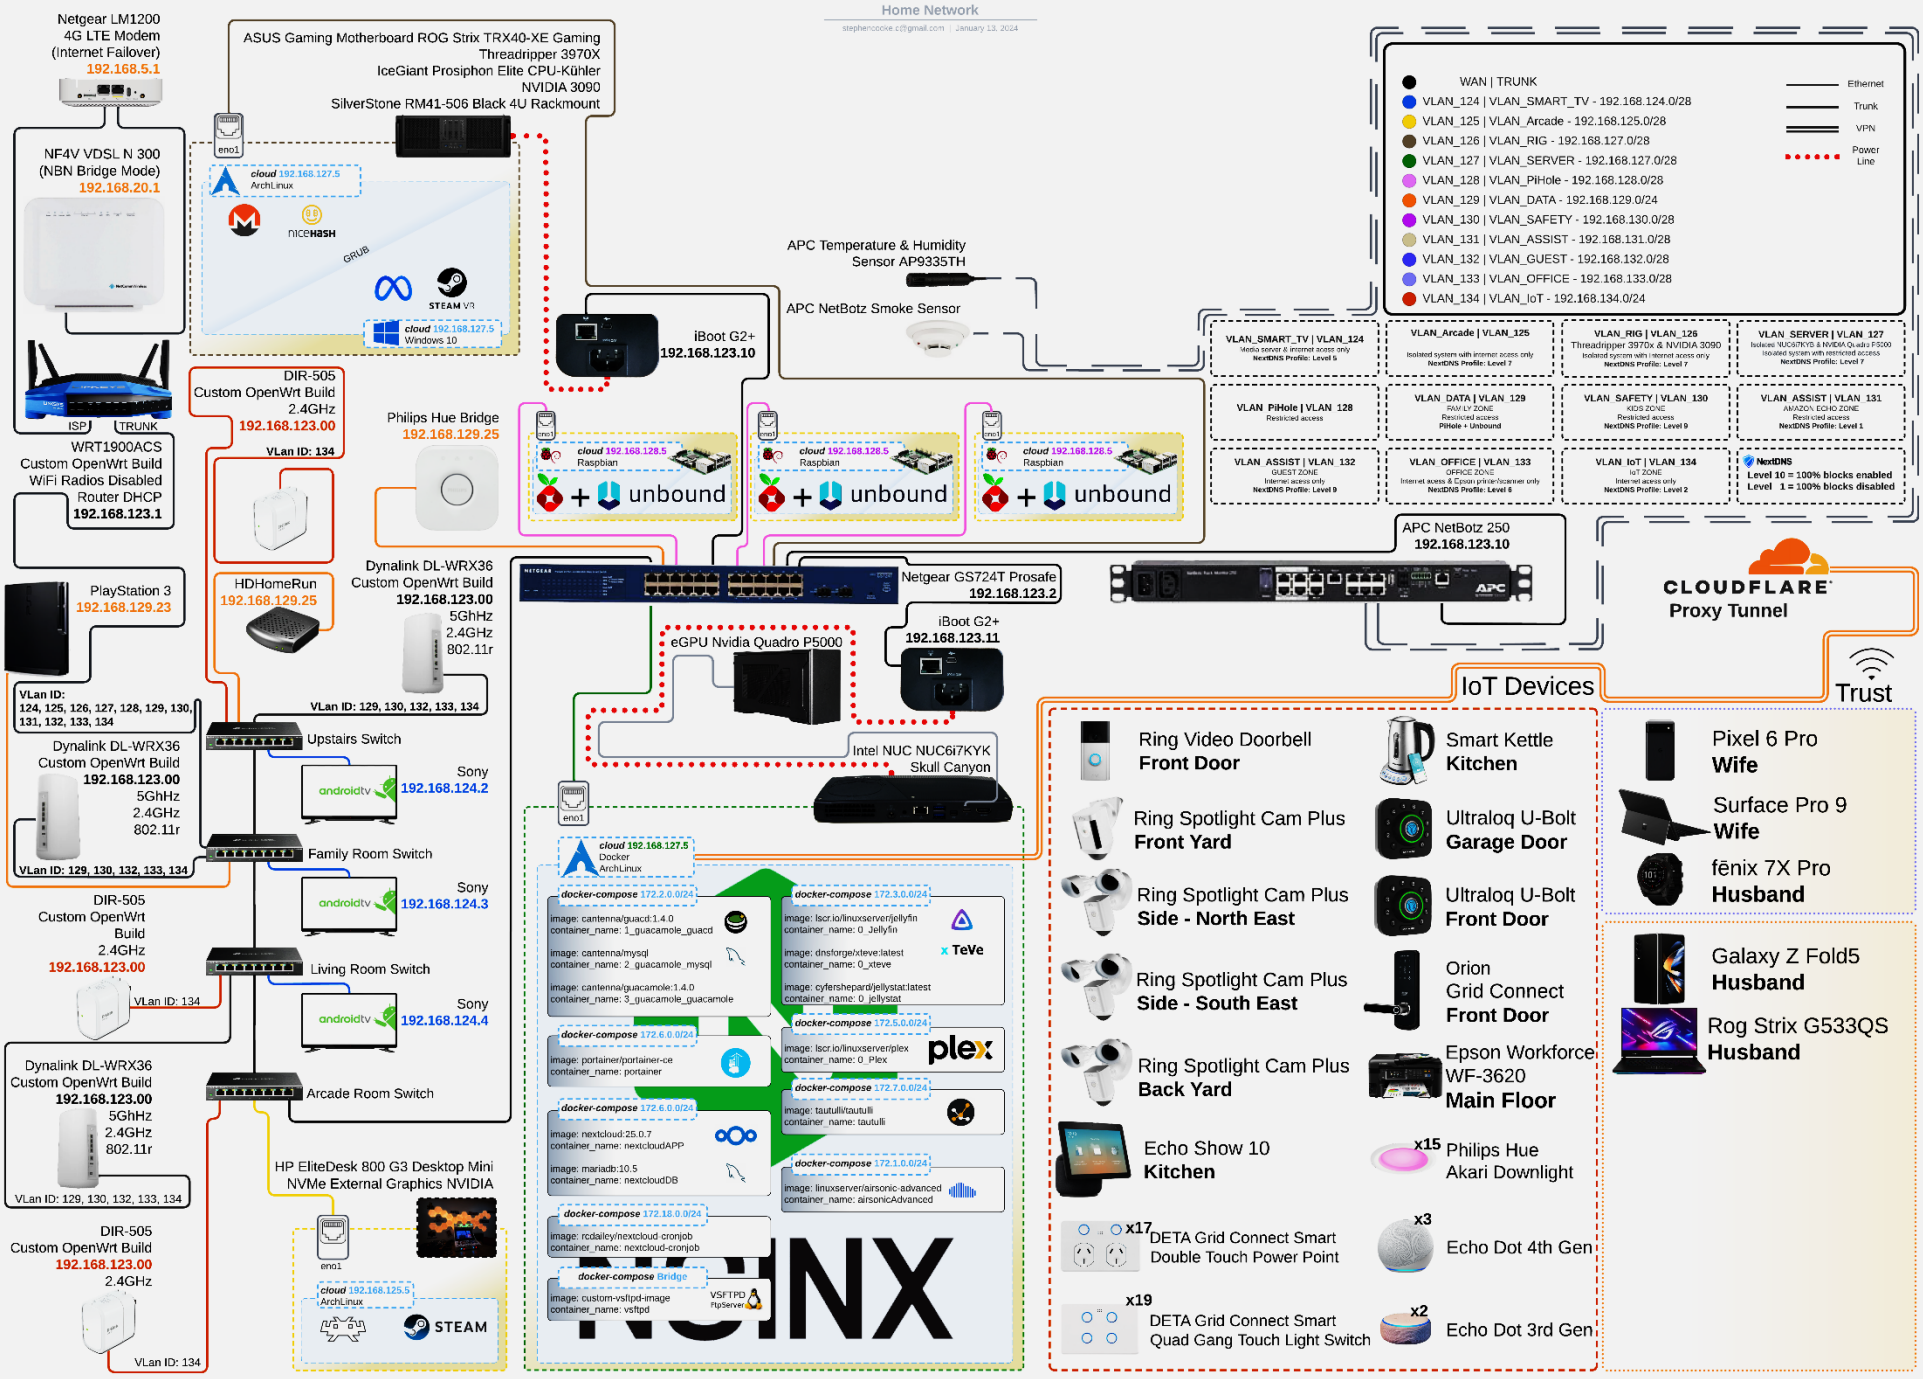

Thank you for considering my application. I would welcome the opportunity to discuss how my work ethic, reliability, and customer-focused approach can contribute to the PepsiCo team.

Stephen Cooke

Key skills

- **Systems Administration**: Proficient in managing Linux distributions (Arch Linux, Fedora, Debian, and Linux Mint) and Windows Server environments.
- **Cybersecurity**: Experienced in implementing BitLocker and LUKS encryption, GRUB rescue techniques, and securing systems with SSL/TLS certificates and best practices like MFA and SSO.
- **Disaster Recovery & Backup**: Skilled in using open-source tools like Clonezilla for system restoration and maintaining resilience through robust disaster recovery planning.
- **Networking & VLAN Configuration**: Skilled in TCP/IP, DNS, routing, firewall configuration, and VLAN segmentation using OpenWrt for optimized and secure networks.

Objective

Resourceful IT professional with extensive experience in Linux system administration, networking, and cybersecurity. Proficient in deploying secure, robust systems and fostering strong client relationships. Skilled in applying key cybersecurity principles, including network segmentation, compartmentalization, obfuscation, Multi-Factor Authentication (MFA), and Single Sign-On (SSO), to enhance system security and resilience. Known for being a reliable single point of contact and ensuring users feel supported through proactive communication. Committed to leveraging technology to serve users and drive innovative solutions in dynamic environments. Actively engaged in ongoing professional development.

Experience

- Practical IT Experience
- Nextcloud Self-Hosting via Docker
- Deployed and managed Nextcloud instances on a self-hosted server using Docker, hosting cookeincode.com to provide a centralized platform for showcasing and selling unique products while enabling on-demand 3D Printing as a Service.
- Operate this venture, CookeInCode Pty Ltd, as a secondary endeavour, combining a personal hobby with ongoing career development in I.T., with plans to engage in prototyping new ideas in the I.T. space and for other companies.
- OpenVPN Server & Certificate Management
- Configured OpenVPN servers and managed SSL/TLS certificates to establish secure connections for remote access and site-to-site communications.
- Customized and compiled OpenWRT firmware for routers to optimize performance, enhance security, and implement advanced features such as VLAN traffic segmentation.
- Automation with Monit & Docker-Compose
- Designed self-healing Docker-Compose environments using Monit and health checks to maintain system uptime.
- Implemented disaster recovery plans and executed system restoration tasks using open-source tools such as Clonezilla, ensuring business continuity.

- **Automation & Monitoring**: Experienced in Docker-Compose, Monit, and Portainer for self-healing systems and containerized deployments.
- **Client & Stakeholder Communication**: Strong interpersonal skills with the ability to explain technical concepts to non-technical users and maintain excellent client relationships.
- **Technical Problem-Solving**: Adept at troubleshooting multi-OS environments and deploying efficient, user-focused IT solutions.

Education

RMIT (via Open Universities Australia)
Bachelor of Information Technology (Incomplete)

- COSC2678 Building IT Systems: High Distinction
- COSC2452 Introduction to Programming: Distinction
- COSC2196 Introduction to Information Technology: Distinction

Interests

- **Linux and Open-Source Technologies**: Passionate about exploring and mastering Linux distributions, open-source tools, and their practical applications in cybersecurity and systems administration.
- **Home Automation and IoT**: Engaged in creating innovative solutions using platforms like Raspberry Pi, integrating smart devices, and optimizing home networks for seamless connectivity.
- **Cybersecurity Awareness**: Actively following industry trends and enhancing my knowledge of encryption, intrusion detection, and emerging technologies to improve system security and resilience.
- **3D Printing and Prototyping**: Designing and manufacturing unique items using CAD tools like Blender and Fusion 360, combining technical skills with creativity to explore product development opportunities.
- **Continuous Learning**: Passionate about developing practical technical expertise through ongoing study, real-world problem solving, and hands-on experience across networking, systems administration, cybersecurity, and IT infrastructure.

Career history

Owner & Managing Director | CookeInCode Pty Ltd
October 2024 – Present

- Operate a small, on-demand business offering IT solutions, consulting, and custom 3D-printed items.
- Host and manage cookeincode.com to showcase products, facilitate on-demand 3D Printing as a Service, and direct traffic to Etsy and eBay storefronts.
- Enhance technical expertise, entrepreneurial skills, and creative problem-solving through this venture.
- Focus on combining personal passion with ongoing career development in I.T., with plans to expand into prototyping services for commercial contracts.

IT Intern | Diamond IT
July 2024 – September 2024

- Gained hands-on experience with Windows Server, Microsoft Azure, and Microsoft 365, focusing on system administration and cloud integration.
- Configured and managed servers, set up cloud resources, and troubleshot system issues.
- Developed technical proficiency in deploying and maintaining IT solutions across diverse platforms.

Account Executive | Aon
March 2010 – June 2015

- Specialized in Account Receivable Insurance, providing innovative solutions for domestic and international trade risks.
- Consistently exceeded new business targets, earning positive performance reviews and performance bonuses.
- Managed Canadian exposures within international Aon programs and cultivated relationships with insurance markets.
- Recognized with the 2012 Summit North Award for Top Producer, showcasing exceptional contributions to the organization.

Sales Agent | Coface Canada
March 2006 – June 2010

- Managed and expanded a portfolio of clients while driving new business development.
- Conducted strategic marketing, orchestrated prospect meetings, and delivered impactful presentations.
- Executed targeted campaigns, resulting in substantial client growth and a high level of client satisfaction.
- Maintained exceptional client service, contributing to notable business growth.

Customer Service Representative | Minacs
June 2003 – June 2004

- Promoted to work on the Bell account after three months due to exceptional customer service performance.
- Assigned to the Government of Ontario account, showcasing recognized customer service excellence.

Retail Supervisor | Compucentre
August 2002 – June 2003

- Provided IT support, including computer repairs and upgrades, and conducted face-to-face sales to help customers find suitable products.
- Promoted to supervisor for outstanding sales performance and customer service, managing store operations and supervising staff.

Assistant Supervisor | Georgeson Shareholder
July 2001 – August 2002

- Handled shareholder communication, proxy solicitation, and customer service operations.

- Promoted to Assistant Supervisor for strong interpersonal skills, overseeing customer service and ensuring client satisfaction.
