Dear Johnson,

Thank you for forwarding my correspondence to the relevant team and for confirming that my bankruptcy estate has been finalised.

I wish to formally reiterate that the continued restriction of my access to personal banking facilities and funds, despite the estate's reported finalisation, has had serious consequences for my ability to secure accommodation and re-establish my independence.

Please be advised that I have added this matter, including the circumstances surrounding the continued withholding of my funds and the resulting hardship, to a permanent public record for Divine Judgement, accountability and posterity.

The documentation can be found at the following locations:

I maintain that the circumstances warrant urgent attention and that the continued inability to access ordinary banking facilities must be resolved.

I look forward to receiving substantive clarification regarding the outstanding funds of AUD $8,504.47, the status of any remaining AFSA restrictions, and the written instructions required by the banks to restore my access.
