Gain/loss

The gain/loss is the net of the realised and unrealised gain/loss for the performance period. The gain/loss for short options will include a realised gain from the option premium received within the period.
The performance gain/loss is different from the gain/loss shown in valuation or taxation reports, which is calculated using the original cost base at a tax lot level.
Please note, accurate gain/loss reporting is dependent on the provision of complete and accurate cost information across the portfolio.

Total return amount for investments

This is the total dollar return based on the realised and unrealised Gain/loss for the period before expenses, plus income and franking credits accrued. Investment movement amounts are included on an accrual basis, net of transaction costs such as brokerage.

Past performance is not an indication of future performance.
