How does the judge look at your case when you hired a lawyer to extract money from t...

Read the email I just sent. My laws are working against me.

The financial settlement I received was never intended to be accepted Dave. I suppose I haven't explained this to you either yet... There just too much but long story short the settlement I ended up accepting was presented to me at 8:30pm 3 hrs after the expiration of the offer from the other side which was sent to my lawyer 4days earlier!!?

The only gains I have had in my matter was when I have gone against my lawyers advice so to speak. All of it.

The 5 night arrangement, equal parenting arrangement - against my lawyers advice to get it.

Hopefully you never have to go though a divorce but know if you do, as a man and if there are kids involved, the lawyer for the most part will get you less than in court. And they make it as difficult and as expensive as possible to get to court.

My matter is simple.

How do you get in front of a Family Expert who's job is to write a family report twice having spent $200k and 2500 on drug and

Yes, this is important for me. Work music!
10:15 am

I went to bed last night at 4:30am working on my matter...

So the BMW at Jesmond we test drive last night, where you up to? Have you heard back? Has he arranged an appointment for a Safety inspection?
10:19 am

Yeah nah not yet, I did research into the model and that steering thing is definitely another issue that needs to be resolved. Depending on the cause of the issue, could be another few hundred bucks to a few thousand bucks. 4.5 k to buy, almost another 5k estimated to repair to tip top condition. Looking like a no go on this one.

I think your right. Convo with ChatGPT;

ME;
2007 BMW have power steering?

Yes, the 2007 BMW models generally have power steering. Most BMW vehicles from that time came equipped with hydraulic power steering systems as standard. Some higher-end models may have also featured BMW's Active Steering system, which adjusts steering sensitivity based on speed for improved handling.

Do you have a specific BMW model in mind for 2007, such as the 3 Series, 5 Series, or another model? The exact system can var slightly depending on the model and trim.

I took the car for a test drive last night, the owner statement that this is normal behaviour but steering the car left and right, it felt as if the power steering was not operating correctly i.e. I would not be able to steer with one finger (not trying to suggest this is at all how I drive.....)

ChatGPT;
It sounds like the steering on the 2007 BMW you test drove may not be functioning properly. While BMWs from that era tend to have heavie... **Read More**

I could just be fluid

Absolutely, which wouldn't be a big issue. Need to get the vehicle checked out cos his last check out seems like it was just for the smoke out of the exhaust 10:36 am

And so if you spend 9k upfront l, look at how more reasonable the options are especially in terms of KM

It's no BMW but it's still a nice car

And at thos km, less issues 10:38 am

Yeah that's the thing, I'm keen on exploring 5k-ish opinions. 10:39 am

250k was the BMW, that's the realm of gaskets leaking needing replacing and I recall my father's advice once that starts up, it's time to get rid of the car.
