Hi Stephen,

It was a pleasure speaking with you.

I think the biggest area we want to target now is tertiary qualifications, even working towards one will open multiple doors.

If cyber security is an area of interest (and the market is very much in demand for those professionals) – I'd strongly recommend going for a 6-month cyber security course at somewhere like TAFE.

That should open a lot more doors and aligns strongly with the technology you've self-taught yourself.

I'll forward your details to a few recruiters I know as well and inform them you're looking at entry – mid level roles and hopefully they'll reach out to you if they find anything suitable.

If there's anything else I can assist with do let me know, let's stay connected over the coming months.

Thanks

**Nazih Battal**
